Profile

I am a hard-working and ambitious computer science student with a proactive approach to self-learning. Seeking challenging work opportunities that allow me to develop my career in the software development industry.

Experience

Bar Back – The Manor   Jul, 2022 – Jan, 2023
- Monitored bar inventory and made notes for needed supplies when necessary.
- Helped open and close the bar in a team environment.

Website developer (Work experience) – Shared Creative   Jan, 2019 – May 2019
- Manipulating images using photoshop to make them fit inside each web page.
- Worked to meet client deadlines.

Office work (Work experience) - AVDC, Gatehouse Road, Aylesbury   May 2017 (2 weeks)
- Working well in a professional team environment (IT department).

Education

Cardiff University – BSc   Sep 2020 - Present
- Currently working towards a BSc in Computer Science. Acquiring/Enhancing many skills including Python and Java development as well as machine learning algorithms, database design and software development methodologies.
